

MARCELLE®  
MINERALS  
*Minerals*

pure make-up  
for your skin

For more than 75 years, Marcelle has been formulating beauty products ideal for even the most sensitive skin. True to its origins, Marcelle continues to skillfully meet the needs of women looking for cosmetics that are not only gentle to the skin but which contain, as much as possible, fewer irritating agents.

With all key ingredients coming from the earth, very pure and simple, Marcelle Minerals offer a line of weightless micro-mineral powders for a luminous and natural looking complexion.

# PURE | UNIQUE | SIMPLE

approach to beauty.

## Marcelle® Minerals Powder Make-Up

Made up of micro-minerals, this light formula provides light to medium coverage allowing the skin to breathe without leaving any traces behind. This ultra-fine and weightless powder results in an even, flawless and luminous complexion without a heavy after feel.

Available in six shades.  
Non comedogenic.

### The secret?

#### Titanium Dioxide:

Provides coverage, minimizes the oily shine on the skin's surface, and offers mineral sun protection.

#### Ronasphere LDP®:

Light-reflecting pigments that capture and reflect the light, illuminating skin tone while diminishing the appearance of fine lines and wrinkles.

**Clay Complex:** Rich in minerals, it stimulates skin oxygenation and firming in order to prevent the visible signs of aging. The micronized particles absorb a large amount of oil and minimize the oily shine on the skin's surface.

## Marcelle® Minerals Powder Blush and Powder Bronzing

These airy and weightless micro-mineral blushes and bronzers provide a velvety and satiny texture resulting in a luminous natural or tanned healthy glow.

## Marcelle® Minerals Eye Shadow

With six ophthalmologist-tested shades to choose from, and buildable colour intensities, the micro-mineral eye shadows not only offer beautiful results, but also are extremely safe on the eyes.

### Key Ingredients

**Marcelle® Minerals Powder Blush and Bronzer as well as the Eye Shadow**

**Mica:** Creates a pearlized finish.

**Bismuth Oxochloride:** Provides coverage, helps to set colour.

**Iron Oxide:** Boosts pigmentation intensity.

**Silica:** For absolute comfort, leaves a soft feel on the skin.

(eye shadow only)

### No Mess Packaging

Marcelle has ingeniously developed practical and convenient packaging, ideal for your purse. Travel without the mess!

**The Marcelle® Minerals Powder Make-Up and Powder Blush or Bronzer** offer an ultra-soft brush made of 100% goat hair. With just a light upside-down shake, the perfect amount of powder is automatically released for a flawless and even application.

Just as innovative, the **Marcelle® Minerals Eye Shadow** comes with an integrated sponge applicator in the cap for an iridescent and satin finish.
